THE following record, while not as complete as could be wished, is, it is believed, as accurate as patience and painstaking can make it, so far as it goes.

The collector of these "statistics" desires to acknowledge the kindness and courtesy of the various members of the family which have enabled him to collate this record. To some he is deeply indebted for a more active interest, without which the record would not have been possible. To mention all of these would make too long a list; to speak of a few would be unjust to the others.

It is a tradition of the Conger family, which for good reasons seems worthy of belief, that the family came from Alsace (then a French province) to Holland about the date of the massacre of St. Bartholomew, the name being Königer, and the family of German origin. From Holland the Königers went to England, and the name was anglicized into Conger. It is said the Congers are numerous in Lincolnshire and in the neighborhood of Bristol.

John Conger, *primus*, was probably one of the soldiers of the Commonwealth Army, and came to Woodbridge, N. J., in 1667, with his wife Mary and one son, Enos. He was not one of the original proprietors who founded Woodbridge, but was one of the first settlers and participated in the first distribution of lands, his patent to 170 acres bearing date March 18, 1669. He held various offices of trust in the township, became a member of the first (Presbyterian) church and died about September, 1712.

His sixth son, and ninth child, Job, born June 9, 1694, died ...., married Mary Percy, and was the father of the Job Conger, a record of whose descendants follows:
